[Click to Shop Now ▶](#)

**PLUS, GET A FREE AMBULANCE!**

See details below.

Push button to activate animated helicopter with rotating rotor blades and emergency sirens!

Helipad with blinking LED lights and additional warning lights on the roof!

Dimensions:  
13"W x 10-1/8"D x 16-3/8"H

Built-in train tunnel to run trains through or use the innovative "tunnel insert" for a stand-alone building!

Lighted Police SUV with working headlights and light-bar with flashing red and blue LED lights!

Figures include two EMTs with stretcher, two police officers with bad guy, hospital visitor, and Jack the German Shepherd!

## NEW FEATURE!

We've added a button to activate sounds.

Your grandkids will love it!

*New Feature!*

Activate helicopter animation and sirens with the push of a button (includes 24" of lead wire)

All other lights work independently of the button, when the building is plugged in

O Scale Sacred Heart Hospital (279-8283) ... \$109.99

Sacred Heart Hospital commemorates a building found in most mid-sized cities, but that has been too long ignored in O gauge. This isn't just a pretty building, but with light and sound action, it will become a point of attention on your railroad!

When powered up, you can see that something big is going on! Warning lights mounted on the roof access structure begin to flash. Safety lights surrounding the chopper's landing spot begin to alternate. Press a button and blades begin to turn and sirens roar! The activation button has two feet of wire for easy placement on your layout.

Down at the emergency room, the police car's rooftop light flash red and blue. Two police officers escort a "perp" wearing a black and white striped shirt, into the building for a little medical attention. Just another day at a big city hospital!

Additional figures include two attendants carrying an empty stretcher toward the helicopter, and Jack the German Shepherd rests by the rooftop elevator!
