Quiet Cushion is a premium acoustical underlayment made up of sound dampening high-performance cross-linked foam with an overlapping film for extra moisture protection at the joints. The extra fine foam offers advanced moisture protection and shock absorption. Utilizing this Progressive Foam Technology (PFT), Quiet Cushion is designed for supreme sound reduction, with a Delta rating of 21, one of the highest in the industry. For use under engineered and laminate flooring.

### TECHNICAL SPECIFICATIONS

IIC (Impact Sound Transmission Test)	69
STC (Sound Transmission Loss Test)	67
Δ (Sound Transmission Loss Test)	21

Both tests measure sound transference from an upper level room to a lower level room. The IIC measures sound such as moving furniture and walking, while the STC measures sound such as voices and television. Minimum sound rating required by most building codes and architects is 50.

Δ Delta Rating is the only true measurement of sound reduction from a product (not a floor assembly) in the industry.
