

MAXI-STACK® IV

The Maxi-Stack® IV car is the ideal domestic double-stack container car because it provides the optimum balance between tare weight and capacity.

It is a three-unit articulated double-stack car that can handle containers from 20' to 53' long in the well and containers from 40' to 57' in the top position. The Maxi-Stack IV utilizes 70-ton end trucks and 125-ton intermediate trucks.
