1:43 Scale Diecast Model

Y-30 "Limited Edition"

1920 Model AC Mack Truck

This scale diecast vehicle is a neat model that could be used on a O scale model railroad or for use on a separate diorama. It is a close replica of the classic 1920 AC Mack truck. Although this is a steam era model it could be heavily weathered and used on a more modern era layout. The model is lettered "Consolidated Motor Transport". The scale for this model is not indicated on the box but it appears to be close to 1:43 scale.
