

2016 TCA CONVENTION CARS

MTH O Scale Katy Flatcar with Southwest Motor Transport Trailer: Red, Black or Set of Both

Continuing the series started in 2013, TCA is proud to offer this flatcar in two colors and road numbers, available for purchase as individual cars or as a set of two. The Missouri-Kansas-Texas railroad, affectionately referred to as the "Katy," had a long tradition of operating in Texas prior to becoming a part of Union Pacific in 1988. The attractive graphics on the trailer represent a Texas-based trucking carrier dating back to 1930—Southwest Motor Transport.

"Made in the USA" Lionel Traditional O Gauge Texas Mexican Railway Boxcar

Chartered in 1881, the Texas Mexican Railway has a long history of transporting goods across southern Texas between Laredo and Corpus Christi. The colorful paint scheme is based on the colors used for the railroad's cabooses and passenger cars. This car is the first offering for TCA members in many years that is in the great tradition of colorful "made in the USA" Lionel cars, and will certainly stand out in any O gauge collection.

Lionel by MTH Tinplate O Gauge Santa Fe Reefer

The Santa Fe had a long tradition in the state of Texas. Another TCA first, this car represents the first time TCA has offered a Lionel O gauge prewar style reefer to the membership. Featuring the "Texas Chief" graphic on one side of the car and the classic "Map" graphic on the other, this reefer reminds us all of the early history of TCA—and why this organization remains the premier train-collecting association in the world.

MTH Standard Gauge Santa Fe Reefer

TCA is also offering a version of this car in Standard Gauge! The Texas Chief was the Texas version of the Super Chief. Passengers could ride daily from Chicago to Galveston, Texas in comfort and style. Always a popular train, it ran until 1979, a full eight years after Amtrak took over passenger service. The Santa Fe, always savvy in their marketing practices, never missed an opportunity to promote their brand. The Lionel by MTH Standard Gauge reefer honors that tradition with the famous Santa Fe Route Map on one side and the "Route of the Texas Chief" on the other.

American Flyer by Lionel S Gauge NASA Rocket Flatcar and Boxcar Set

No convention held in Houston would be complete without a reference to NASA. O gauge collectors have enjoyed collecting and operating NASA-themed cars for many decades. Now for the first time anywhere a NASA-themed set is being offered in S gauge. This two-car set is sure to be a collectible as a first-of-its-kind and will look as good on display as it will in operation on your layout.

All cars/artwork shown are pre-production; actual models may differ
