

NEW! YORK HOTEL FROM MENARDS®

ROLL OUT THE RED CARPET
Six O scale figures including a doorman and Jack the German Shepherd

TRAIN TUNNEL & INSERT
Designed to sit over the tracks. Or, if you'd rather have a stand-alone structure, just use our innovative tunnel insert to transform the train tunnel!

ROOF TURBINES & LIGHTS
The roof is full of excitement with three animated roof turbines. These motor-driven turbines rotate in unison! And, each corner has a bright red LED light!

Building Dimensions:
11" W x 11-1/4" D x 23" H

NEW! York Hotel Royale 279-3973

- Big building, tiny footprint! Designed to sit over your existing tracks for a very small footprint – only 6-3/4" x 11"
- "Tunnel insert" transforms the tunnel into a parking garage

REG. PRICE \$119.99
11% REBATE* \$13.20

FINAL PRICE \$106.79

Prebuilt, prelit and ready to go! This building is specially designed to sit over your existing O gauge tracks. Using the train tunnel, the footprint is amazingly small for such a huge building (only 6-3/4" x 11"). That's a tiny footprint for a building that will be the centerpiece of your layout! Or, if you'd rather have a stand-alone structure, the "tunnel insert" allows you to do both! Simply place the newly designed insert into the tunnel to perfectly transform the train tunnel into a really cool underground parking garage.

From its authentic brick texture to the whopping 188 windows, the amount of detail captured in the O gauge York Hotel Royale is astonishing. Each window even has blinds! And the windows glow softly through frosted glass, where you'll notice that some rooms are lit and occupied while others are dark and vacant.

Take a look at the bustling hotel entrance with its gold entry doors and red carpet! Six O scale figures, which include a doorman, 4 guests and Jack the German Shepherd, bring life to this extraordinary scene. The roof is full of excitement with 3 animated roof turbines, which rotate in unison, and 4 bright red LED lights! Over 25 LED lights illuminate the front entry and the "York Hotel Royale" marquee.

With all the LED lights and motor-driven roof turbines, this hotel is easily the most robust building we've made yet. And because of that, it requires our newly designed 4.5-volt transformer with an impressive 5,000 mA output.

4.5-Volt, 5,000mA Adapter
