NEW! World Headquarters Building with 24 Signs 279-3972

This building can be the World Headquarters of anything you'd like it to be! Since we are railroad fans, we are giving you 24 railroad decals to choose from, so you can decide which world headquarters this will be. Or, you could make it the Starbucks® World Headquarters if you'd like!

Prebuilt, prelit and ready to go! Standing 23-1/2" tall, the O Gauge World Headquarters building is brilliantly lit, both inside and out, with over 250 LED lights and topped off with a handsome, backlit "World Headquarters" sign! Decorate your World Headquarters building with any of the 24 interchangeable railroad decals included or make your own sign to personalize "Your" World Headquarters.

Please notice the backlit signs, including 3 "Starbucks® Coffee" and 2 "Office Entrance" signs, as well as the authentically weathered concrete, 7 O scale people, planters and Jack the German Shepherd. Another very cool feature is a fully decorated interior with 7 additional people, a full Starbucks Coffee Shop including multiple tables with chairs and a counter with a barista ready to take your order! Simply plug in the power supply (SKU# 279-4050), and the opaque lobby roof illuminates, allowing you to view the interior scene from above. In addition to a prelit lobby, the offices above are lit from the inside by hundreds of diffused LED lights for a soft glowing appearance.

This office building is the next in a series of large buildings with a small footprint. The structure is specially designed to allow it to sit over your existing O gauge tracks. Using the train tunnel, the footprint is amazingly small for such a huge building (basically 13" W x 11"D). That's a tiny footprint for a building that will be the centerpiece of your layout! Or, if you'd rather have a stand-alone structure, the "tunnel insert" allows you to do both with a footprint of 13"W x 16-1/8"D! Simply place the newly designed insert into the tunnel to perfectly transform the train tunnel into a really cool underground parking garage.

With all the LED lights, the World Headquarters is one of our most robust buildings. Because of that, it requires our newly designed 4.5-volt transformer with an impressive 5,000 mA output (Menards SKU# 279-4050). **All this for only \$119.99!**

Backlit "World Headquarters" Sign with 24 Interchangeable Decals!

Prelit Exterior and Fully Decorated Interior!

FREE! **6-PACK OF TREES!**
