Prebuilt and prelit! Introducing the 30-Sign Locomotive Maintenance Shed! This maintenance shed is constructed mainly from wood, with the addition of molded architectural features and a sturdy, extra-right platform for maximum durability. It is prelit and features hand-painted details including two workers, two trees, three shrubs, four working doors and Jack the German Shepherd. However, the best part is its customizable back-lit sign! (Shown above with the Santa Fe Railroad decal).

Decorate your building with any of the (30) 2.5" x 1.75" railroad signs included! These signs are interchangeable and can be placed anywhere around your layout. In addition to this wonderful sign, you can add even more excitement to your layout by turning on the LED lights! Two LED yard lights illuminate this building's exterior while its interior glows elegantly with multiple LED lights.
